Alstom to build HVDC VSC converter stations for the France-Italy transmission link

Alstom has been awarded a contract worth over €300 million by TERN Rete Italia, a company fully owned by TERN, the Italian electricity transmission system operator, and Réseau de Transport d'Électricité (RTE), its French counterpart, to build two High Voltage Direct Current (HVDC) converter stations for the transmission link between France and Italy.

How does it work? Here we go.
